16 public charter schools; and

17 (f) determining whether each charter contract merits renewal, nonrenewal, or revocation.

18 (2) An authorizer may delegate its duties to its officers, employees, and contractors.

19 (3) Regulation of public charter schools by authorizers is limited to the powers and duties described in  
20 [sections 1 through 17], consistent with the intent of [sections 1 through 17].

21 (4) An authorizer shall develop, carry out, and maintain chartering policies and practices consistent

3 (6) Each authorizer shall submit to the commission an annual report summarizing:

4 (a) the authorizer's strategic vision for chartering and progress toward achieving that vision;

18 entity.

19 (8) A governmental unit or other entity, other than those expressly granted chartering authority as set  
20 forth in [sections 1 through 17], may not assume any charter-authorizing function or duty in any form unless  
21 expressly allowed by law.

22

23 NEW SECTION. **Section 7. Duties of commission for oversight of authorizer.** (1) The commission  
24 shall establish a statewide formula for authorizer funding to be applied uniformly to every authorizer in the state.  
25 Authorizer funding is financed through an oversight fee.

26 (2) The oversight fee must be calculated as a uniform percentage of the state funding allocated to  
27 each public charter school and is to be paid from the public charter school's budget share of the per-pupil  
28 funding, not to exceed 3% of each public charter school's state funding in a single school year.

1           (3) The commission may establish a sliding scale for authorizer funding, with the funding percentage  
2 decreasing after the authorizer has achieved a certain threshold after a certain number of years of authorizing,  
3 after a certain number of schools have been authorized, or for other reasons determined at the discretion of the  
4 commission.

5           (4) An authorizer's oversight fee may not include any costs incurred in delivering services that a public  
6 charter school may purchase at its discretion from the authorizer. The authorizer shall use the funding provided  
7 under this section exclusively for the purpose of fulfilling authorizing obligations in accordance with [sections 1  
8 through 17].

9           (5) The commission is responsible for overseeing the performance and effectiveness of all authorizers  
10 established under [sections 1 through 17].

11           (6) The commission shall annually review the effectiveness of the state formula for authorizer funding  
12 and shall adjust the formula if necessary to maximize public benefit and strengthen the implementation of  
13 [sections 1 through 17].

14           (7) By October 15 of each year, the commission shall communicate to every authorizer the  
15 requirements for the format, content, and submission of the annual report.

16           (8) Persistently unsatisfactory performance of an authorizer's portfolio of public charter schools, a  
17 pattern of well-founded complaints about the authorizer or its public charter schools, or other objective  
18 circumstances may trigger a special review by the commission.

19           (9) In reviewing or evaluating the performance of authorizers, the commission shall apply nationally  
20 recognized principles and standards for charter authorizing.

21           (10) If at any time the commission finds that an authorizer is not in compliance with an existing charter  
22 contract, its authorizing contract with the commission, or the requirements of authorizers under [sections 1  
23 through 17], the commission shall notify the authorizer in writing of the identified problems and shall provide the  
24 authorizer reasonable opportunity to respond and remedy the problems.

25           (11) If an authorizer fails to respond and remedy the problems identified by the commission, the  
26 commission shall notify the authorizer, within a reasonable amount of time under the circumstances, that it  
27 intends to revoke the authorizer's chartering authority unless the authorizer demonstrates a timely and  
28 satisfactory remedy for the violation or deficiencies.

1 (12) In the event of revocation of an authorizer's chartering authority, the commission shall manage the  
2 timely and orderly transfer of each charter contract held by that authorizer to another authorizer in the state,  
3 with the mutual agreement of each affected public charter school and proposed new authorizer. The new  
4 authorizer shall assume the existing charter contract for the remainder of the charter term.

5 (13) On or before December 1 of each year, beginning in the first year that public charter schools have  
6 been in operation for a full school year, the commission shall issue to the board of public education, the  
7 education and local government interim committee, and the public an annual report on the state's public charter  
8 schools that includes data from the annual reports submitted by every authorizer, as well as any additional  
9 relevant data compiled by the commission, for the school year ending in the preceding calendar year. The  
10 annual report must include:

11 (a) a comparison of the performance of public charter school students with the performance of  
12 academically, ethnically, and economically comparable groups of students in noncharter public schools; and

13 (b) the commission's assessment of the successes, challenges, and areas for improvement in  
14 meeting the purposes of [sections 1 through 17], including the commission's assessment of the sufficiency of  
15 funding for public charter schools, the efficacy of the state formula for authorizer funding, and any suggested  
16 changes in state law or policy necessary to strengthen the state's public charter schools.

17  
18 **NEW SECTION. Section 8. Purchase of services by charter school.** (1) With the exception of  
19 oversight services as required by [section 7], a public charter school may not be required to purchase services  
20 from the public charter school's authorizer as an express or implied condition of charter approval or of executing  
21 a charter contract.

22 (2) A public charter school may choose to purchase services from its authorizer. In that event, the  
23 public charter school and authorizer shall execute an annual service contract, separate from the charter  
24 contract, stating the parties' mutual agreement concerning any services to be provided by the authorizer and  
25 any service fees to be charged to the public charter school. An authorizer may not charge more than market  
26 rates for services provided to a public charter school.

27  
28 **NEW SECTION. Section 9. Charter school proposal process -- request for proposal -- charter**

4 requirements of [sections 1 through 17].

- 20 assessments and submissions of coursework; and
- 21 (c) conduct parent-teacher conferences.

22 (9) In the case of a proposed public charter school that intends to contract with an education service  
23 provider for substantial educational services, management services, or both, a request for proposal must  
24 additionally require the applicants to:

- 25 (a) provide evidence of the education service provider's success in serving student populations similar
- 26 to the targeted population, including demonstrated academic achievement as well as successful management
- 27 of nonacademic school functions if applicable;
- 28 (b) provide documentation setting forth:

- 1 (i) the proposed duration of the service contract;
- 2 (ii) the roles and responsibilities of the governing board, the school staff, and the education service
- 3 provider;
- 4 (iii) the scope of services and resources to be provided by the education service provider;
- 5 (iv) performance evaluation measures and timelines;
- 6 (v) a compensation structure, including clear identification of all fees to be paid to the education
- 7 service provider;
- 8 (vi) methods of contract oversight and enforcement;
- 9 (vii) investment disclosure; and
- 10 (viii) conditions for renewal and termination of the contract; and
- 11 (c) disclose and explain any existing or potential conflicts of interest between the governing board and
- 12 the proposed education service provider or any affiliated business entities.

13 (10) In the case of a public charter school proposal from an applicant that currently operates one or

14 more schools in any state or nation, a request for proposal must additionally require the applicant to provide

15 evidence of past performance and current capacity for growth.

16 (11) If a public charter school proposal does not contain the elements required in this section, the

17 authorizer may consider the proposal incomplete and return the proposal to the applicant without the process

18 described in subsection (12).

19 (12) In reviewing and evaluating charter proposals, authorizers shall employ procedures, practices,

20 and criteria consistent with nationally recognized principles and standards for charter authorizing. The proposal

21 review process must include thorough evaluation of each written charter proposal, an in-person interview with

22 the applicant group, and an opportunity in a public forum for local residents to learn about and provide input on

23 each proposal.

24 (13) In deciding whether to approve charter proposals, authorizers shall:

- 25 (a) grant charters only to applicants that have demonstrated competence in each element of the
- 26 authorizer's published approval criteria and are likely to open and operate a successful public charter school;
- 27 (b) base decisions on documented evidence collected through the proposal review process; and
- 28 (c) follow charter-granting policies and practices that are transparent, are based on merit, and avoid

1 conflicts of interest or any appearance of conflict.

2 (14) (a) The authorizer shall approve or deny the charter proposal within 60 days after the filing of a  
3 charter proposal, except the commission has up to 120 days if more than three proposals have been submitted  
4 to the commission within 30 days. The commission shall notify the applicant of the expected timeline for  
5 approval or denial.

6 (b) The authorizer shall adopt by resolution all charter approval or denial decisions in an open  
7 meeting of the authorizer's governing body.

8 (c) An approval decision may include, if appropriate, reasonable conditions that the applicant must  
9 meet before a charter contract may be executed pursuant to [section 10].

10 (d) For any charter denial, the authorizer shall clearly state for the public record the reasons for  
11 denial. A denied applicant may subsequently reapply to that authorizer or apply to any other authorizer in the  
12 state.

13 (e) Within 10 days of taking action to approve or deny a charter proposal, the authorizer shall report  
14 its decision to the commission. The authorizer shall provide a copy of the report to the applicant at the same  
15 time that the report is submitted to the commission. The report must include a copy of the resolution of the  
16 authorizer's governing body setting forth the action taken and reasons for the decision and providing  
17 assurances of compliance with all of the procedural requirements and proposal elements set forth in this  
18 section.

19 (15) An applicant may submit a proposal for a particular public charter school to only one authorizer at  
20 a time.

21  
22 NEW SECTION. Section 10. Charter contract -- terms. (1) An initial charter must be granted for a  
23 term of 5 operating years, commencing on the public charter school's first day of operation. An approved public  
24 charter school may delay its opening for 1 school year to plan and prepare for the school's opening. If the  
25 school requires an opening delay of more than 1 school year, the school shall request an extension from its  
26 authorizer. The authorizer may grant or deny the extension depending on the particular school's circumstances.

27 (2) Within 45 days of approval of a charter proposal, the authorizer and the governing board of the  
28 approved public charter school shall execute a charter contract that clearly sets forth the academic and

1 operational performance expectations and measures by which the public charter school will be judged and the  
2 administrative relationship between the authorizer and the public charter school, including each party's rights  
3 and duties.

4 (3) The performance provisions may be refined or amended by mutual agreement after the public  
5 charter school is operating and has collected baseline achievement data for its enrolled students.

6 (4) The charter contract for a virtual public charter school must include a description and agreement  
7 regarding the methods by which the school will:

8 (a) monitor and verify full-time student enrollment, student participation in a full course load, credit  
9 accrual, and course completion;

10 (b) monitor and verify student progress and performance in each course through regular, proctored  
11 assessments and submissions of coursework; and

12 (c) conduct parent-teacher conferences.

13 (5) The charter contract must be signed by the president of the authorizer's governing body and the  
14 president of the public charter school's governing board. Within 10 days of executing a charter contract, the  
15 authorizer shall submit to the commission written notification of the charter contract execution, including a copy  
16 of the executed charter contract and any attachments.

17 (6) A public charter school may not commence operations without a charter contract executed in  
18 accordance with this section and approved in an open meeting of the authorizer's governing body.

19 (7) Authorizers may establish reasonable preopening requirements or conditions to monitor the  
20 startup progress of a newly approved public charter school to ensure that the school is prepared to open  
21 smoothly on the date agreed and to ensure that each school meets all building, health, safety, insurance, and  
22 other legal requirements for school opening.

23  
24 **NEW SECTION. Section 11. Enrollment.** (1) (a) A public charter school must be open to any student  
25 residing in the state.

26 (b) A school district may not require a student enrolled in the school district to attend a public charter  
27 school.

28 (c) A public charter school may limit admission to students within a given age group or grade level.

1 (d) A public charter school may be organized for a special emphasis, theme, or concept as stated in  
2 the school's proposal.

3 (e) A public charter school shall enroll all students who wish to attend the school unless the number of  
4 students exceeds the capacity of a program, class, grade level, or building.

5 (f) If capacity is insufficient to enroll all students who wish to attend the school, the public charter  
6 school shall select students through a lottery.

7 (2) A noncharter public school converting to a public charter school shall adopt and maintain a policy  
8 giving enrollment preference to students who reside within the former attendance area of that public school.

9 (3) (a) A public charter school shall give enrollment preference to students who were enrolled in the  
10 public charter school the previous school year and to siblings of students already enrolled in the public charter  
11 school. An enrollment preference for returning students excludes those students from entering into a lottery.

12 (b) A public charter school may give enrollment preference to children of a public charter school's  
13 governing board and full-time employees, limited to no more than 10% of the school's total student population.

14 (4) This section does not preclude the formation of a public charter school for the purpose of serving  
15 students with disabilities, students of the same gender, students who pose a sufficiently severe disciplinary  
16 problem to warrant a specific educational program, or students who are at risk of academic failure. If capacity is  
17 insufficient to enroll all students who wish to attend a school, the public charter school shall select students  
18 through a lottery.

19 (5) If a student who was previously enrolled in a public charter school enrolls in any other public  
20 school in this state, the student's new school shall accept credits earned by the student in courses or  
21 instructional programs at the public charter school.

22 (6) A school district shall provide or publicize to parents and the general public information about  
23 public charter schools as an enrollment option within the district to the same extent and through the same  
24 means that the district provides and publicizes information about noncharter public schools in the district.

25 (7) An authorizer may not restrict the number of students a public charter school may enroll. The  
26 capacity of the public charter school must be determined annually by its governing board in conjunction with the  
27 authorizer and in consideration of the public charter school's ability to facilitate the academic success of its  
28 students, to achieve the objectives specified in the charter contract, and to ensure that its student enrollment

1 does not exceed the capacity of its facility or site.

2

3 NEW SECTION. Section 12. Charter school performance and renewal. (1) The performance  
4 provisions within the charter contract must be based on a performance framework that clearly sets forth the  
5 academic and operational performance indicators, measures, and metrics that will guide the authorizer's  
6 evaluations of each public charter school. The performance framework must include indicators, measures, and  
7 metrics for, at a minimum:

8 (a) student academic proficiency;

9 (b) student academic growth;

10 (c) achievement gaps in both proficiency and growth between major student subgroups;

11 (d) attendance;

12 (e) recurrent enrollment from year to year;

13 (f) postsecondary readiness;

14 (g) financial performance and sustainability; and

15 (h) governing board performance and stewardship, including compliance with all applicable laws,  
16 regulations, and terms of the charter contract.

17 (2) Each public charter school, in conjunction with its authorizer, shall set annual performance targets  
18 designed to help each school meet applicable federal, state, and authorizer expectations.

19 (3) (a) The contract performance framework must allow the inclusion, with the authorizer's approval,  
20 of additional rigorous, valid, and reliable indicators proposed by a public charter school to augment external  
21 evaluations of its performance that are consistent with the purposes of [sections 1 through 17].

22 (b) The authorizer shall collect and analyze data from each public charter school it oversees in  
23 accordance with the performance framework.

24 (c) Multiple schools operating under a single charter contract or overseen by a single governing board  
25 shall report their performance as separate, individual schools, and each school must be held independently  
26 accountable for its performance.

27 (4) (a) An authorizer shall monitor the performance and legal compliance of the public charter  
28 schools it oversees, including collecting and analyzing data to support ongoing evaluation according to the

1 charter contract. Every authorizer has the authority to conduct or require oversight activities that do not unduly  
2 inhibit the autonomy granted to public charter schools but that enable the authorizer to fulfill its responsibilities  
3 under [sections 1 through 17], including conducting appropriate inquiries and investigations consistent with the  
4 intent of [sections 1 through 17], and to adhere to the terms of the charter contract.

5 (b) Each authorizer shall annually publish and provide as part of its annual report to the commission a  
6 performance report for each public charter school it oversees, within the performance framework set forth in the  
7 charter contract and [section 10]. The authorizer may require each public charter school it oversees to submit  
8 an annual report to assist the authorizer in gathering complete information about each school, consistent with  
9 the performance framework.

10 (c) In the event that a public charter school's performance or legal compliance appears unsatisfactory,  
11 the authorizer shall promptly notify the public charter school of the perceived problem and provide reasonable  
12 opportunity for the school to remedy the problem.

13 (d) An authorizer may take appropriate corrective action or exercise sanctions short of revocation in  
14 response to apparent deficiencies in public charter school performance or legal compliance. The action or  
15 sanctions may include, if warranted, requiring a public charter school to develop and execute a corrective action  
16 plan within a specified timeframe.

17 (5) (a) A charter may be renewed for successive 5-year terms, although the authorizer may vary the  
18 term based on the performance, demonstrated capacities, and particular circumstances of each public charter  
19 school. An authorizer may grant renewal with specific conditions for necessary improvement to a public charter  
20 school.

21 (b) No later than June 30 of each year, the authorizer shall issue a public charter school performance  
22 report and charter renewal application guide to any public charter school whose charter will expire the following  
23 year. The performance report must summarize the public charter school's performance record to date, based  
24 on the data required by [sections 1 through 17] and the charter contract, and must provide notice of any  
25 weaknesses or concerns perceived by the authorizer concerning the public charter school that may jeopardize  
26 renewal if not promptly rectified. The public charter school shall respond to the performance report and submit  
27 any corrections or clarifications within 90 days.

28 (6) The renewal application guide must, at a minimum, provide an opportunity for the public charter

1 school to:

2 (a) present additional evidence, beyond the data contained in the performance report, supporting its  
3 case for charter renewal;

4 (b) describe improvements undertaken or planned for the public charter school; and

5 (c) detail the public charter school's plans for the next charter term.

6 (7) The renewal application guide must include or refer explicitly to the criteria that will guide the  
7 authorizer's renewal decisions, based on the performance framework set forth in the charter contract and  
8 consistent with [sections 1 through 17].

9 (8) (a) No later than February 1 of each year, the governing board of a public charter school seeking  
10 renewal shall submit a renewal application to the charter authorizer pursuant to the renewal application guide  
11 issued by the authorizer. The authorizer shall rule by resolution on the renewal application no later than 30 days  
12 after the filing of the renewal application.

13 (b) Every authorizer shall, when considering charter renewal:

14 (i) base its decision on evidence of the school's performance over the term of the charter contract in  
15 accordance with the performance framework set forth in the charter contract;

16 (ii) ensure that the data used in making renewal decisions is available to the school and the public; and

17 (iii) provide a public report summarizing the basis for each decision.

18

19 **NEW SECTION. Section 13. Charter contract revocation and school closure or charter contract**

20 **nonrenewal.** (1) A charter contract may be subject to nonrenewal or revocation if the authorizer determines  
21 that the public charter school:

22 (a) committed a material and substantial violation of any of the terms, conditions, standards, or  
23 procedures required under [sections 1 through 17] or the charter contract and from which the public charter  
24 school was not exempted;

25 (b) failed to meet or make sufficient progress toward the performance expectations set forth in the  
26 charter contract;

27 (c) failed to meet public safety standards; or

28 (d) failed to meet generally accepted standards of fiscal management.

- 1           (2) An authorizer shall develop revocation and nonrenewal processes that:
- 2           (a) provide the charter holders with timely notification of the prospect of revocation or nonrenewal and
- 3 of the reasons for the possible closure;
- 4           (b) allow the charter holders a reasonable amount of time in which to prepare a response;
- 5           (c) provide the charter holders an opportunity to submit documents and testimony at a hearing to
- 6 challenge the rationale for the closure recommendation and in support of the continuation of the school;
- 7           (d) allow the charter holders to be represented by counsel and call witnesses on their behalf;
- 8           (e) permit the recording of the proceedings; and
- 9           (f) provide for a final determination conveyed in writing to the charter holders.
- 10          (3) If an authorizer revokes or denies renewal of a charter, the authorizer shall clearly state, by
- 11 resolution of its governing body, the reasons for the revocation or nonrenewal.
- 12          (4) Within 10 days of taking action to renew, not renew, or revoke a charter, the authorizer shall report
- 13 to the commission the action taken and at the same time shall provide a copy of the report to the public charter
- 14 school. The report must include a copy of the resolution of the authorizer's governing body setting forth the
- 15 action taken and reasons for the decision and providing assurances of compliance with all the requirements set
- 16 forth in [sections 1 through 17]. The authorizer's decision is appealable to the commission in writing within 30
- 17 days of the commission's receipt of the authorizer's report.
- 18          (5) (a) Prior to a public charter school closure, an authorizer shall develop a public charter school
- 19 closure protocol to ensure timely notification to parents, orderly transition of students and student records to
- 20 new schools, and proper disposition of school funds, property, and assets in accordance with the requirements
- 21 of [sections 1 through 17]. The protocol must specify responsible parties, transition and closure timelines, and a
- 22 delineation of the respective duties of the public charter school and the authorizer.
- 23          (b) The authorizer shall oversee the closure and work with the closing public charter school to ensure
- 24 a smooth and orderly closure and transition for students and parents.
- 25          (c) In the event of a public charter school closure for any reason, the nonrestricted distributable
- 26 assets of the public charter school must be distributed first to satisfy outstanding payroll obligations for
- 27 employees of the public charter school, then to creditors of the public charter school, then to public school
- 28 districts to which students previously attending the closed charter school are returning on a prorated per-pupil

1 basis, and then to the state general fund. If the assets of the public charter school are insufficient to pay all  
2 obligations, the prioritization of the distribution of assets may be determined by a court of law.

3 (d) If a closing public charter school was converted from an existing noncharter public school, the  
4 closing public charter school is not responsible for any financial obligation or debt of the previously existing  
5 noncharter public school unless the public charter school assumed the debt or obligation at the time of  
6 conversion.

7 (6) Transfer of a charter contract, and of oversight of that public charter school from one authorizer to  
8 another before the expiration of the charter term, may occur only if the authorizer violates the provisions of  
9 [section 6] or by special petition to the commission by a public charter school or its authorizer. The commission  
10 shall consider a petition for transfer on a case-by-case basis and may grant transfer requests in response to  
11 special circumstances and to evidence that the transfer would serve the best interests of the public charter  
12 school's students.

13

14 NEW SECTION. Section 14. Public charter school operation and autonomy. (1) (a) A public  
15 charter school must be a nonprofit education organization.

16 (b) A public charter school is subject to all federal laws and authorities as provided in [sections 1  
17 through 17] or arranged by charter contract with the public charter school's authorizer consistent with applicable  
18 laws, rules, and regulations.

19 (c) Except as provided in [sections 1 through 17], a public charter school is not subject to the  
20 provisions of Title 20 or any state or local rule, regulation, policy, or procedure relating to noncharter public  
21 schools within an applicable local school district.

22 (d) A single governing board may hold one or more charter contracts. A charter contract may consist  
23 of one or more schools, to the extent approved by the authorizer and consistent with applicable law. Each  
24 public charter school that is part of a charter contract is separate and distinct from any other public charter  
25 school.

26 (e) The initial governing board of a public charter school shall ensure an elected governing board is in  
27 place within 12 months of the school commencing operations. The governing board must be elected by a  
28 process outlined in the charter school bylaws. The election process must include the following:

- 1 (i) parents and guardians of students enrolled in the school shall nominate candidates for the
- 2 governing board;
- 3 (ii) if the number of nominees is equal to the number of vacancies, no election is required;
- 4 (iii) if the number of nominees is greater than the number of vacancies, the election must be decided
- 5 by the qualified electors of the district as part of the next regular school election; and
- 6 (iv) the terms of board members must be staggered to ensure continuity on the governing board.
- 7 (2) A public charter school may not be created within the geographical boundaries of a third-class
- 8 elementary district, as described in 20-6-201, or a third-class high school district, as described in 20-6-301,
- 9 unless:
- 10 (a) the public charter school is being converted from an existing public school;
- 11 (b) the school district elects to establish a public charter school;
- 12 (c) the school district elects to convert a grade or grades to a public charter school from an existing
- 13 school;
- 14 (d) the public charter school is a tribal charter school; or
- 15 (e) the public charter school is a virtual public charter school.
- 16 (3) A public charter school shall function as a local educational agency. A public charter school is
- 17 responsible for meeting the requirements of a local educational agency under applicable federal, state, and
- 18 local laws, including those relating to special education.
- 19 (4) A public charter school is primarily responsible for special education at the school, including
- 20 identification and service provisions, and is responsible for meeting the needs of enrolled students with
- 21 disabilities. If a student's individualized education program team determines that a student's needs are so
- 22 profound that they cannot be met in the public charter school and that the public charter school cannot provide
- 23 a free, appropriate public education to that student, the student's district of residence shall place the student in
- 24 a more appropriate setting.
- 25 (5) A public charter school has all the powers necessary for carrying out the terms of its charter
- 26 contract, including the following powers:
- 27 (a) to receive and disburse funds for school purposes;
- 28 (b) to secure appropriate insurance and to enter into contracts and leases, free from prevailing wage

1 laws;

2 (c) to contract with an education service provider for the management and operation of the public  
3 charter school only if the school's governing board retains oversight authority over the school;

4 (d) to incur debt in reasonable anticipation of the receipt of public or private funds;

5 (e) to pledge, assign, or encumber its assets to be used as collateral for loans or extensions of credit;

6 (f) to solicit and accept gifts or grants for school purposes subject to applicable laws and the terms of  
7 its charter contract;

8 (g) to acquire real property, for use as its facility or facilities, from public or private sources; and

9 (h) to sue and be sued in its own name.

10 (6) (a) A public charter school may not engage in any sectarian practices in its educational program,  
11 admissions policies, employment policies or practices, or operations.

12 (b) The powers, obligations, and responsibilities set forth in the charter contract may not be delegated  
13 or assigned by either party except as otherwise specifically provided in [sections 1 through 17].

14 (7) (a) A public charter school is subject to the same civil rights, health, and safety requirements  
15 applicable to other public schools in the state except as otherwise specifically provided in [sections 1 through  
16 17].

17 (b) The governing board shall establish graduation requirements and may award degrees and issue  
18 diplomas.

19 (c) A governing board is subject to and shall comply with state open meeting and public records laws  
20 pursuant to Title 2, chapters 3 and 6.

21 (d) A public charter school shall establish purchasing procedures that include a competitive bidding  
22 process for purchases or contracts exceeding \$80,000.

23 (8) (a) Public charter school teachers are exempt from state teacher certification requirements  
24 provided in 20-4-101.

25 (b) Employees in public charter schools have the same rights and privileges as other public school  
26 employees except as otherwise provided in [sections 1 through 17].

27 (c) Teachers and other school personnel, as well as governing board trustees, are subject to criminal  
28 history record checks and fingerprinting requirements.

1 (d) Public charter school employees may not be required to be members of any existing collective  
2 bargaining agreement between a school district and its employees. However, a public charter school may not  
3 interfere with laws and other applicable rules protecting the rights of employees to organize and to be free from  
4 discrimination.

5  
6 **NEW SECTION. Section 15. Funding of public charter schools.** (1) It is the intent of the legislature  
7 that:

8 (a) a public charter school receive funding on a per-pupil basis that is equitable with the per-pupil  
9 spending of a student's resident school district;

10 (b) a public charter school be budgeted along with other schools in the located school district; and

11 (c) funds generated for a public charter school be accounted for separately as described in this  
12 section.

13 (2) If a district that consists of only one school desires to convert to a public charter school, this  
14 section does not apply and the district funding formula under Title 20 applies. The district shall transfer funds to  
15 the governing board of the public charter school that maintains the operational and programmatic autonomy  
16 described in [sections 1 through 17].

17 (3) A public charter school may not charge tuition pursuant to 20-5-323 and may charge only fees that  
18 may be imposed by noncharter public schools in the state.

19 (4) A student enrolled in a public charter school must be included in the resident school district's ANB  
20 count.

21 (5) The county treasurer of the county in which a public charter school is located shall establish an  
22 account for the public charter school separate from the accounts of the located school district.

23 (6) The county treasurer of a county in which a nonresident student resides shall by the first day of  
24 each month from September through June of the school fiscal year transfer from the general fund account of  
25 the nonresident student's resident school district an amount equal to 10% of the student amount to the county  
26 treasurer of the county in which the charter school the student attends is located.

27 (7) For budgeting purposes, a public charter school must be considered a separate budget unit of the  
28 located school district and must have its ANB calculated separately from the other schools in the district and

1 receive a basic entitlement calculated separately from the other schools in the district, except that a virtual  
2 public charter school receives no basic entitlement.

3 (8) A public charter school is funded as follows:

4 (a) The county treasurer shall transfer to the public charter school's account from the located school  
5 district's general fund account by the fifth day of each month from September through June of the school fiscal  
6 year an amount equal to the sum of 10% of:

7 (i) the charter school's basic entitlement amount unless it is a virtual public charter school; and

8 (ii) the student amount for the located school district multiplied by the number of full-time resident  
9 students enrolled in the public charter school.

10 (b) In addition to the amounts transferred in subsection (8)(a), the county treasurer shall by the fifth  
11 day of each month from September through June of the school fiscal year transfer to the public charter school's  
12 account any nonresident student amount transferred from the county treasurer of a county in which a  
13 nonresident student resides as provided in subsection (6).

14 (9) A public charter school may expend funds according to its charter contract and is not subject to  
15 budget restrictions under Title 20, chapter 9.

16 (10) A public charter school may obligate the public charter school to indebtedness and is solely  
17 responsible for those debts. A public charter school is not responsible for any debt service obligations that exist  
18 in the school district in which the public charter school is located.

19 (11) Nothing in [sections 1 through 17] may be construed to prohibit any person or organization from  
20 providing funding or other assistance for the establishment or operation of a public charter school. The  
21 governing board of a public charter school is authorized to accept gifts or donations of any kind made to the  
22 public charter school and to expend or use the gifts or donations in accordance with the conditions prescribed  
23 by the donor. A gift or donation may not be accepted if the gift or donation is subject to a condition that is  
24 contrary to any provision of law or term of the charter contract.

25 (12) Money received by a public charter school from any source and remaining in the public charter  
26 school's accounts at the end of a budget year must remain in the public charter school's accounts for use by the  
27 public charter school in subsequent years.

28 (13) For the purposes of this section, the following definitions apply:

1 (a) "Located school district" means the school district in which a charter school is located.

2 (b) "Nonresident student" means a student attending a charter school who is not a resident of the
